2011 ESTIMATED MILEAGE METHOD 2

Name of Registrant _____ Account Number _____ Fleet Number _____ License Year _____

This form must be completed and attached to the Mileage and Weight Application Schedule C (MC006) or Renewal Mileage Schedule to meet the requirements for declaring estimated mileage unless using Method 1, Schedule G form.

Registrants who request apportionment for a jurisdiction where no miles were accrued during the preceding year must estimate the mileage. Zero miles will not be accepted. Second and subsequent-year estimated miles will be calculated at over 100%. If, at the time of audit, the fleet is found to have accrued actual miles during the preceding year, applicable fees will be assessed.

All estimated miles for a fleet must use the same method (Method 1 or Method 2). Estimated miles should be for a similar amount of time as any actual miles.

METHOD 2 – If your route of travel is unknown, use the figures shown below (**multiply the miles by the number of vehicles in each fleet**). Once your estimated mileage is determined, input the corresponding estimated distance on the Mileage Application Schedule C (MC006) or Renewal Mileage Schedule.
